---

Beside the bugs that Vio and Mr. Monopoly found on MonopolyCityStreets.com, this days i've found another one. I've made an offer to an owner for a street. As the game rules, the owner of the street must give an answer in 7 days. after that, the street goes to the bidder. I've just wait for a favorite answer, but ...nothing. When the regular time has expired, the street still remains to his owner. I've checked the street, and I've still appear as the last player that made an offer for that street.

Now I wait for the administrators of MCS to solve the bug.
